

# IXIASOFT

Thousands of users  
around the world are creating  
high-quality documentation  
with our DITA CMS.

Find out why.

Our customers include:

Visit us at the Exhibitor's Hall this week  
to meet the team and see a demo of the IXIASOFT DITA CMS.

**IXIASOFT** is a sponsor of CIDM DITA Europe 2016 | [www.ixiasoft.com](http://www.ixiasoft.com)

## The IXIASOFT DITA CMS:

### Your enterprise-class CCMS solution.

DITA CMS is the leading component content management solution (CCMS) worldwide. Specifically designed to manage the entire DITA documentation process, DITA CMS provides all the tools required to support a complex documentation workflow from authoring to reviewing, localizing and publishing.

### Our DITA CMS provides:

- *Improved documentation quality and consistency.*
- *Enhanced team collaboration and productivity.*
- *On-time delivery of personalized documentation.*

### Don't miss the following session with Leigh W. White, IXIASOFT DITA Specialist:

**Date:** Monday, November 14

**Time:** 10:40am

#### The DITA Iceberg

Since it became a public standard in 2005, DITA has grown increasingly complicated. Will future DITA development be for the benefit of an increasingly small minority of users with the necessary in-house technical expertise to take advantage of it? Or could DITA and its programming-like approach to content creation be a driver for increased technical expertise among writers?

Join Leigh W. White, IXIASOFT DITA Specialist, to discuss the DITA Iceberg and how it may impact DITA adoption.

### IXIASOFT customers and partners are also presenting:
