

XDocs™

Deliver content intelligently
from the fastest-to-deploy
enterprise class CCMS

XDocs Component Content Management System (CCMS) is a standards compliant single-sourcing solution that enables everyone within the organization to create, manage, store and **intelligently publish large volumes of both XML and non-XML content**.

Our **competitive pricing** model enables organizations of all sizes to realize the benefits of an enterprise class platform, and our **rapid deployment** methodology means teams can be up and running in a matter of hours.

XDocs customers range from Fortune 100 organizations seeking complex cross-departmental DITA solutions to small businesses containing single author documentation teams.

End-to-end

XDocs provides a complete solution. Your content team can create, review, find, update, manage, localize and deliver content with unparalleled agility.

Solutions for all your content challenges

Delivering content for different audiences, languages, and publish outputs is easy. Delivery is agile, automated, and responsive.

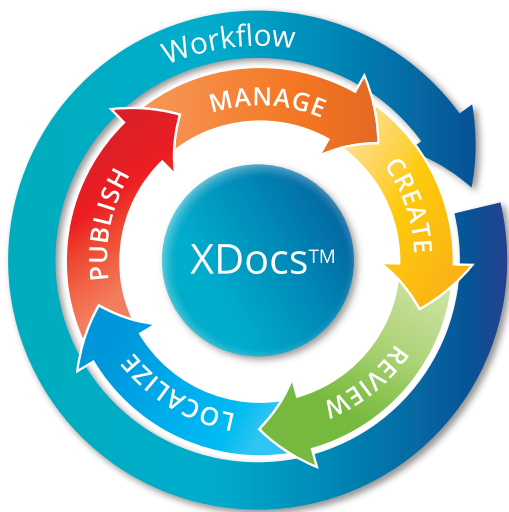

Easy-to-deploy

Out-of-the-box XDocs is fully functional and feature rich. Customization is simple and it can be installed and deployed in hours.

The Content Lifecycle

Bluestream and XDocs support your entire content lifecycle.

■ Manage

With XDocs, you have complete control over content and users.

■ Create

XDocs ships with a powerful editor and seamlessly integrates with other authoring tools.

■ Review

Provide easy access to your subject matter experts and coworkers for contributions to and approval of content.

■ Localize

Full support for localization allows you to round trip content and maximise the savings structured content offers.

■ Publish

Effortlessly send your content to the web, the Bluestream Knowledge Base, portals, mobile devices, pdf, print and much more.

■ Workflow

The optional Workflow module adds a further layer of regulation and reporting functionality.

Maximize the value of your content

Our built-in Knowledge Base module offers agile, automated, and responsive updates and delivery of your content directly from your source server.

Your readers can search, browse, find, and share your approved knowledge assets faster in both HTML and PDF.

Publishing outputs:
